

Take-Away Pump

Features:

- Dissipative R&R Lotion bottles are made to protect ESD sensitive items, charges removed when grounded
- Low tribo-charging - will not easily produce a charge when moved or lifted
- Square shape provides stability and saves storage space
- Take-Along Pump
 - There is an opening in the center of the dish to allow the fluid to seep back down into the bottle
 - Locking pump will not leak when engaged - suitable for travel
- Dispenses approximately 2cc of liquid with each pump
- Made in America; superior quality

Specifications:

- **Resistance Point to Point (Rtt)**
10E9 to 10E10 ohms tested per ANSI/ESD S11.12

Item	Description
35716	Take-Away, Blue Dissipative HDPE, 6 oz (180mL)

"It should be understood that any object, item, material or person could be a source of static electricity in the work environment. Removal of unnecessary nonconductors, replacing nonconductive materials with dissipative or conductive materials and grounding all conductors are the principle methods of controlling static electricity in the workplace, regardless of the activity." [ESD Handbook ESD TR20.20-2008 section 2.4 Sources of Static Electricity]

Unless otherwise noted, tolerance ± 10%
