

Tape dispenser only shown for modeling purposes

- A. Vermason packaging tape [71163](#) is a conventional self-adhesive PVC tape.
- B. It uses an acrylic gum adhesive. The tape is yellow and is printed in black with the ESD hand-in-triangle logo specified by EN 61340-5.
- C. The tape is tribocharging and is not suitable for use in an EPA. It is however suitable for sealing secondary packaging of electrostatic sensitive devices such as cardboard boxes.
- D. Roll width is 50mm, roll length is 66m.

Made in Britain

Item	Description
<a href="#">71163</a>	Packaging Tape, 50mm wide, 66m Roll

Replace regular adhesive tapes with Antistatic tapes complying with EN 61340-5

- "All generators of electrostatic charges, such as untreated plastic films, foams, synthetic fibres, adhesive tapes, etc., must be prohibited and should be kept away from the EPA." (EN 61340-5-2 section 6))
- "EPA should never have any electrostatic generative adhesive tapes or labels, as these can cause very high potentials when applied or stripped off." (EN 61340-5-1 section 7.4)

Specifications and procedures subject to change without notice.
