

### Description:

These black powder-free finger cots are made from natural rubber. They provide excellent ESD protection and tactile sensitivity. The static dissipative property of the finger cot is integral and will not rub or wash off and does not depend on humidity or any ingredient to migrate to the surface. These finger cots meet requirements of ASTM 03772 for physical properties.

Store in cool and dry conditions. Shelf life is 3 months from date of purchase. Rotate your stock accordingly.

### Properties:

1. Material: Black latex rubber, powder free
2. Thickness: 2 - 5 mil
3. Surface Resistivity: 10E6 - 10E9 ohms, average of 10E8 Ohms (ASTM-D257)
4. Tribogeneration: Less than 100 volts
5. Decay Time: Less than 0.01 sec. (FTMS-101C, Method 4046)
6. Package: 720 pieces per bag

### Part Number:

ITEM#	DESCRIPTION
34010	Finger Cot, Small
34015	Finger Cot, Medium
34020	Finger Cot, Large
34025	Finger Cot, X-Large

**Warning:** These finger cots contain natural rubber which can cause skin rashes; hives; nasal, eye, or sinus irritation; shortness of breath; coughing or wheezing; and/or shock.

Users experiencing these symptoms should not use natural rubber cots until evaluated by a physician. Further exposure could result in serious allergic reactions including illness or death.
