

Description

The Remote Jack allows one or two operators to be continuously monitored at separate adjacent workstations. It requires 2 #6 or #8 wood or metal screws for installation (not included).

Features:

- A. Remote jack connection allows the operator to be monitored up to 7 feet away from the unit.
- B. Unterminated 7' cord allows unit to be connected with monitor.
- C. Durable powder coated steel case.

41103 installed at workbench.

Remote Jack, Monitor
