

Meets ANSI/ESD S20.20 and Packaging standard ANSI/ESD S541

Features

- Constructed from extruded honey-comb structure of high impact polypropylene material yielding superior strength and durability
- Provides physical protection with conductive material ensuring reliable path-to-ground
- Rolled over side construction (double thickness) for greater durability
- Identified with ESD protective symbol as required by ANSI/ESD S541
- Conductive plastic handle for ease of handling
- Includes steel wire frame for extra strength
- Chemical and moisture resistant
- Ideal use where corrugated and/or paper products cannot be used
- Product ships assembled
- Available options include: (1) Lid manufactured from ENDURA-TEK™; (2) Static Dissipative Foam bottom to provide ESD and shock protection
- Made in the United States of America
