## SPECIFICATIONS

- Choice of 4 header colors to help identify your group, department and work instructions; keep track of everyone at your facility; or just assist in organizing your meetings or events
- The ESD Shop Traveler is made using 0.3 mm thick ESD vinyl on front and back and 0.25 mm clear rigid vinyl as liner
- Includes inner anti-print, non-ESD vinyl liner which will prevent ink transfer from your document to the document holder
- Ideal for use by electronic manufacturers who work with ESD sensitive components
- Marked with ESD Protective symbol; ideal for use by electronic manufacturers who work with ESD sensitive components
- Dissipative vinyl  $1 \times 10^4$  to  $< 1 \times 10^{11}$  ohms, per ANSI/ESD STM11.11. Meets ANSI/ESD S20.20 and ANSI/ESD S541
- Designed to hold "A4" size 210 mm x 297 mm documents
- Pre-punched metal grommet hang hole
- Zipper is made from non-ESD vinyl
- Made in the United States of America

"It should be understood that any object, item, material or person could be a source of static electricity in the work environment. Removal of unnecessary nonconductors, replacing nonconductive materials with dissipative or conductive materials and grounding all conductors are the principle methods of controlling static electricity in the workplace, regardless of the activity." (ESD Handbook ESD TR20.20 section 2.4 Sources of Static Electricity)"

$\pm 1.6$  mm tolerances on dimensions unless specified
