

Cascade Filter

Recirculating fume extraction is now extremely important with the rising concern for our environment and employee safety. Purex Fume Extractors provide not only a flexible and portable process for plant redesigns and expansions, but also a more stable process by providing a controlled airflow to remove harmful fumes. All this while eliminating the added costs of building modifications, increased air handling systems and lost energy.

## Purex Cascade In-Line Filter

- ❖ Removes large particles from the process air
- ❖ Extends the life of the filters in the fume extractor
- ❖ Used on problematic applications where large quantities of dust are produced
- ❖ Filter can be seeded to help deal with sticky particles
- ❖ Filter can be emptied and shaken to prolong life
- ❖ Can be added to existing fume extractor rather than purchasing new larger equipment
- ❖ Low capital and running costs
- ❖ Simple to install and easy to relocate
- ❖ Precision made from stainless steel
