Grounding & Cleaning

If the material is used on top of an already properly grounded surface, [grounding hardware](#) may not be necessary. Where no properly grounded surface is available, [grounding hardware](#) is required to provide a path-to-ground. Rg compliance verification measurements must be made per EN 61340-5-1 periodically with a [surface resistance meter](#).

See Tech Bulletin [TB-7000](#) for Reztore® Surface & Mat Cleaner Application Instructions.

Limited Lifetime Warranty:

Desco Europe warrants for one year that Statfree® matting products will be free of defects in materials and workmanship and will guarantee dissipative/conductive mat properties for the life of the mat. Damage to matting caused by misuse of any kind, including using inappropriate cleaners is not covered by [Desco Europe Limited Warranty](#).

RoHS 2, REACH, and Conflict Minerals Statement

Specifications

Standard Document

EN 61340-5-1

Meets Requirements of:

Working Surface

Electrical Properties

Property	Test Method	Value
Colour Dissipative Side		
Rp-p Resistance:	IEC 61340-2-3	1 x 10 ⁶ to < 1 x 10 ⁹ ohms
Rg Resistance:	IEC 61340-2-3	1 x 10 ⁶ to < 1 x 10 ⁹ ohms
Black Side		
Rp-p Resistance:	IEC 61340-2-3	<1 x 10 ⁶ ohms

More conductive bottom layer makes suitable for use with continuous monitors.

Physical Properties

Construction:	Dual-layer Rubber ¹
Thickness:	2 mm
Texture: ²	Slight Emboss
Colours: ²	Blue

¹Rubber material is vulcanized and may contain sulfur.

²Colour, texture, and gauge may vary between lots and mills

Tolerances

Width ± 6 mm
Length ± 21 mm for every linear metre of material
Thickness ± 10%

Matting materials have a tendency to shrink slightly when first unrolled. In applications where length is critical, allow the material to relax for at least 4 hours before cutting to size. Always trim with a sharp knife or razor blade.
