A. Patented (U.S. Patent 5,951,337) barrel type banana plug with machined contour spring support. Crimped uniformly from 4 sides for maximum strength. Fits industry standard banana jack ≥ 0.157". Will maintain greater than 1 pound disengagement force over the life of the cord.

B. Thermoplastic elastomer strain relief molded on. Bending Life Test average >1,000,000 cycles per ANSI/ESD S20.20 (Tested per ANSI/ESD S1.1). Break load average 30 pounds.

C. Polyurethane wire insulation. Rapid retraction coil cord compresses length with resulting benefit of less tangling and dragging along work surface. Break load average 30 pounds.

E. Autosplice brass crimp secures conductors to resistor lead and provides stress relief for resistor.

F. One megohm ±5%, 1/4 watt, current limiting resistor.

G. Magnetic connection creates a superior connection with wristband meets >1 to <5 pound breakaway force requirement of ANSI/ESD S1.1.

H. Jewel® logo molded in compliance with ANSI/ESD S1.1.

I. Date coded with date of manufacture.

J. Underwriters Laboratory Listing 90P1C when used with Desco Single-Wire MagSnap wristbands.

Meets required limits of ANSI/ESD S20.20 and requirements of ANSI/ESD S1.1.

Specifications and procedures subject to change without notice.
