Snaps and Pres-N-Snap Tool

Snaps are used to connect a ground cord to a static mat. Grommet and Clinch Style snaps are attached with a Pres-N-Snap. Nickel plated brass snaps provide electrical connection and a long service life.

SNAPSOCKET3/8:
- 3/8" (10 mm) Female Snap Grommet Style
Socket snaps are held in place by crimping the tip of an eyelet though the center of the socket with a snap tool. This traps the mat between the socket on the top of the mat and the eyelet on the back of the mat. 10 sockets and eyelets are included in each pack.

3033:
- Male Snap Fastener 0.125" Hole
Stud snaps are held in place by crimping the tip of an eyelet though the center of the stud with a snap tool. This traps the mat between the stud on the top of the mat and the eyelet on the back of the mat. 10 studs and eyelets are included in each pack.

3050:
- 3/8" (10 mm) Female Snap 8-Prong
Prong snaps are used to connect a ground cord to a static mat. These clinch style snaps are held in place by pushing the prongs through the mat and crimping them on the bottom of the mat with a snap tool. 10 snaps are included in each pack.

3052:
- Replacement die set for PRES-N-SNAP Tool
- Use for attaching 3050 snaps

PRES-N-SNAP TOOL:
- For attaching Grommet Style snaps
- Versatile and easy to use
- Capable of setting numerous brands of fasteners simply by changing the dies
